

Module 1: Layout & Visual Consistency (10 Cases)

This ensures the website "looks" right to the user.

ID	Scenario	Test Steps	Test Data	Expected Result	Actual Result	Pass/Fail
GUI_01	Navbar Alignment	Observe the position of Home, Rooms, Facilities, etc.	N/A	Navigation links are center-aligned or left-aligned as per design.	As expected	Pass
GUI_02	Brand Logo Display	Check "TJ Website" logo in the top left.	N/A	Logo is clearly visible and not overlapping with other elements.	As expected	Pass
GUI_03	Button Color Code	Check "Book Now" and "Login" buttons.	N/A	Button colors are consistent (e.g., Teal/Green) throughout the site.	As expected	Pass
GUI_04	Font Consistency	Compare fonts on Home and Rooms pages.	N/A	Font family and size are uniform across all user-facing pages.	As expected	Pass
GUI_05	Room Card Layout	View Supreme Deluxe, Luxury, and Deluxe cards.	N/A	All cards have identical height, width, and spacing.	As expected	Pass
GUI_06	Footer Information	Scroll to the bottom of the page.	N/A	Links, Address, and Social Icons are properly padded and legible.	As expected	Pass

GUI_07	Image Resolution	Check Carousel and Room images.	N/A	Images are not blurry or stretched beyond their aspect ratio.	As expected	Pass
GUI_08	Icon Uniformity	Check Facility icons (Wifi, Geyser, etc.).	N/A	Icons are of the same size and style (Black/White or Color).	As expected	Pass
GUI_09	Text Wrapping	Check long room descriptions or reviews.	N/A	Text does not overflow the container; it wraps correctly.	As expected	Pass
GUI_10	Testimonial Slider	Watch the automatic transition of reviews.	N/A	Slide transitions are smooth without flickering or jumps.	As expected	Pass

Module 2: Interactive GUI Elements (10 Cases)

This focuses on how the UI reacts to user actions like hovering or clicking.

ID	Scenario	Test Steps	Test Data	Expected Result	Actual Result	Pass/Fail
GUI_11	Button Hover State	Hover over the "Login" button.	N/A	Button changes color or brightness (Visual Feedback).	As expected	Pass
GUI_12	Active Link Indicator	Click on "Rooms" in the Navbar.	N/A	The "Rooms" link becomes bold or changes color to show it's active.	As expected	Pass
GUI_13	Modal Centering	Click "Register" to open the modal.	N/A	The registration modal appears exactly in the center of the screen.	As expected	Pass

GUI_14	Modal Background Dim	Open any modal (Login/Registration).	N/A	The background content is dimmed (Overlay) to focus on the modal.	As expected	Pass
GUI_15	Input Field Focus	Click inside the "Name" field in Registration.	N/A	The field border highlights (usually blue or teal) when focused.	As expected	Pass
GUI_16	Error Message Styling	Submit an empty form.	N/A	Error messages or tooltips appear in Red/Alert color for visibility.	As expected	Pass
GUI_17	Dropdown Visibility	Click the 'ankita' user dropdown.	N/A	Menu items (Profile, Bookings) appear without clipping.	As expected	Pass
GUI_18	Scroll-to-Top Behavior	Scroll down and click the "Reach Us" link.	N/A	The page scrolls smoothly to the relevant section.	As expected	Pass
GUI_19	Map Interactive UI	Hover/Click on the Google Map in Contact Us.	N/A	Map zoom controls (+/-) and markers are visible and interactive.	As expected	Pass
GUI_20	Form Button Placement	Look at "Pay Now" or "Submit" buttons.	N/A	Action buttons are placed at the bottom-right or center of forms.	As expected	Pass

Module 3: Admin Panel GUI (10 Cases)

Ensuring the dashboard is efficient for the administrator.

ID	Scenario	Test Steps	Test Data	Expected Result	Actual Result	Pass/Fail
----	----------	------------	-----------	-----------------	---------------	-----------

GUI_A 1	Sidebar Navigation	Check the left-hand menu.	N/A	Sidebar stays fixed or collapses correctly; icons are visible.	As expected	Pass
GUI_A 2	Card Color Coding	View Dashboard Analytics.	N/A	'Refund Bookings' uses Yellow, 'Cancelled' uses Red, etc.	As expected	Pass
GUI_A 3	Table Column Header	Go to 'Booking Records'.	N/A	Table headers are bolded and distinct from data rows.	As expected	Pass
GUI_A 4	Search Bar UI	Locate the search input in any table.	N/A	Search bar is clearly labeled and positioned at the top-right.	As expected	Pass
GUI_A 5	Pagination Controls	Scroll to the bottom of the User list.	N/A	'Prev', 'Next', and 'Last' buttons are aligned and clickable.	As expected	Pass
GUI_A 6	Badge Styling	Check the 'Status' column in Rooms.	N/A	'Active' shows as a black/green badge; 'Inactive' as red.	As expected	Pass
GUI_A 7	Settings Form Layout	Open 'Settings' page.	N/A	Sections (General, Contact, Shutdown) are separated by clear borders.	As expected	Pass
GUI_A 8	Action Icon Spacing	Look at the 'Action' column (Edit/Delete).	N/A	Icons have enough space between them to avoid accidental clicks.	As expected	Pass
GUI_A 9	Image Preview (Admin)	Add a new Carousel image.	N/A	A thumbnail preview of the image is shown after upload.	As expected	Pass

GUI_A 10	Responsive Dashboard	Resize the browser window to 50%.	N/A	Admin menu collapses or adjusts to fit the smaller width.	As expected	Pass
---------------------	---------------------------------	-----------------------------------	-----	---	-------------	------
